

# Frequently Asked Questions

## What is Schola®?

---

Schola® is an Education Technology company that provides specialized software solutions for families and schools to improve education outcomes. Schola® helps families discover, connect, and enroll in the ideal educational setting and helps schools attract, commit, and nurture prospective families by optimizing the student recruitment process.

## What is Schola®'s mission?

---

Schola®'s mission is to help students discover, connect, and enroll in their ideal learning environment to create a brighter future.

## Why are Schola®'s services free to parents?

---

Schola® was born from the belief that finding and enrolling in the right school should be a free, easy, and accessible process for families, no matter their background. Schola® is a private company that is backed by several investors, as well as offers premium services to schools.

## How can I contact your team for support or help find a school for my child?

---

If you need help finding a school for your child or have any questions, please don't hesitate to reach out. You can email us at [email address], reach out to us on social media as Schola or Schola.io, or call us at (833) 620-2223. Our team is happy to provide support and assistance!

## How does Schola® work for families?

---

Finding the perfect school can feel overwhelming, but it doesn't have to be. Schola® helps you find the right school in just three simple steps

## DISCOVER

Families visit Schola.com and can select their child's grade, interests, hobbies, and preferred learning environment, and our ScholaMatch™ software matches them to the schools in their area that best meet their unique needs.

## CONNECT

Parents can quickly learn more about each option and reach out to their school matches directly on Schola.com with the click of a button.

## ENROLL

Schola® supports families through the application process for their school of choice to ensure students can enroll in their ideal learning environment.

### Is Schola® a School?

---

No, Schola® is not a school. Rather, Schola® helps connect families to the right school in their area.

### What does Schola® do with my information?

---

Your privacy is very important to us. Any information provided to Schola® is only used to help us connect you with the right school based on your provided information. This information is shared with schools you match on Schola® but will never be shared or released elsewhere.

### Why doesn't Schola® rate schools?

---

You wouldn't go to the #1 rated coffee shop if you only drink tea. The same goes for schools. Education is not one-size-fits all, so just because a school is highly rated does not mean it will be a great fit for each individual student. Rather than rating schools based on standardized test scores, stats, or reviews, we stick to helping your child find the school that meets their needs and interests.
